## Equine Feeds & Services

## Classic

*A traditional 12% textured feed designed to provide nutrition to the all-around type horse. Contains flaked corn, crimped oats, barley, supplement pellets for balanced vitamins and minerals, and some molasses for increased palatability.*

Protein (min)..... 12.0%  
Fiber (max)..... 12.0%  
Fat (min)..... 2.5%

## Fieldmaster

*An 11% textured feed designed to work with a variety of hay qualities. Contains flaked corn, crimped oats, barley, supplement pellets for balanced vitamins and minerals, and some molasses for increased palatability. **Only available in bulk.***

Protein (min)..... 11.0%  
Fiber (max)..... 13.5%  
Fat (min)..... 2.0%

## Leacock

*An 11% textured feed designed to provide nutrition for the all-around type horse in light to moderate work. With higher fiber levels, this feed would be ideal for "easy keepers" and feeding for maintenance.*

Protein (min)..... 11.0%  
Fiber (max)..... 15.0%  
Fat (min)..... 1.8%

## Active 10

*A 10% pelleted feed designed as a lower protein, higher fat feed for all types of horses. Contains high levels of digestible fiber and ingredients such as beet pulp.*

**Only available in 50 lb. bags.**

Protein (min)..... 10.0%  
Fiber (max)..... 16.5%  
Fat (min)..... 7.0%

## Backwoods

*An 11% textured feed designed to provide nutrition for the active horse. An excellent conditioning formula with moderate levels of fat and adequate protein and fiber. Contains mostly crimped oats with some flaked corn and supplement pellets.*

Protein (min)..... 11.0%  
Fiber (max)..... 15.0%  
Fat (min)..... 4.7%

## Senior

*A 14% pelleted feed designed to provide nutrition to the aging horse. Increased levels of protein, fat, and fiber help supply nutrients to a horse that may have difficulty with feed intake. Developed as an easy to break down alfalfa-based pellet.*

Protein (min)..... 14.0%  
Fiber (max)..... 23.0%  
Fat (min)..... 3.0%
